ACADEMIC AND RESEARCH POSITIONS

2016– **DECRA Ressearch Fellow**
Australian Research Council (ARC) grant number: DE170101134.
La Trobe University, Melbourne, Australia
Project: Feasible algorithms for big inference.

2016– **Lecturer**
Department of Mathematics and Statistics
La Trobe University, Melbourne, Australia

2018 **Visiting Research Fellow**
Mistis Team
Inria Grenoble Rhone-Alpes, France

2017, 2018 **Visiting Research and Teaching Fellow**
Lab of Mathematics: Nicolas Oresme
University of Caen, France

2015–2016 **Postdoctoral Research Fellow**
School of Mathematics and Physics, and Centre for Advanced Imaging
University of Queensland, Brisbane, Australia
Supervisors: Dr Andrew Janke and Prof Geoffrey McLachlan
Project: Mixture modelling for multimodal medical imaging data

2015 **Visiting Research Fellow**
SIMEXP Laboratory
Centre de Reserche de l'Institut Universitaire de Geriatrie de Montreal, Canada

2010 **Vacation Research Scholar**
Diamantina Institute, University of Queensland, Brisbane, Australia
Supervisor: Dr Michelle Hills
Project: Bioinformatics for clinical proteomics

2009 **Research Assistant**
Commonwealth Scientific and Industrial Research Organisation, Australia
Supervisors: Dr Andrew George and Dr Emma Huang
Project: Genome-wide association study of wheat crop traits

2008 **Vacation Research Scholar**
Commonwealth Scientific and Industrial Research Organisation, Australia
Supervisors: Dr Andrew George and Dr Emma Huang

Project: Association analysis in sugarcane—on the hunt for sugar genes

TERTIARY EDUCATION

2011–2015 **PhD in Statistics** (Dean's Award for Outstanding RHD Theses)
University of Queensland, Brisbane, Australia

Supervisors: Prof Geoffrey McLachlan, Dr Ian Wood, and Dr Andrew Janke

Thesis title: Finite mixture models for linear regression data

Key words: Expectation-maximization algorithm, false discovery rate control, minorization-maximization algorithm, mixture model, neuroimaging, numerical optimization, random-effect models, regression

2006–2011 **Bachelor of Science with First Class Honours in Statistics** (Mathematics and Statistics majors; University Medal)
University of Queensland, Brisbane, Australia

Supervisor: Dr Ian Wood and Dr Andrew George

Thesis title: Variable selection in linear models using metaheuristic algorithms with applications in genome-wide association studies

2010 **Study Abroad** (Scholarship; Spring Semester)
University of California, Berkeley, USA

2006–2010 **Bachelor of Economics**
University of Queensland, Brisbane, Australia

TEACHING AND INSTRUCTION

2018 **Optimization theory for statistics and machine learning** (University of Caen)

A series of five lectures and three computer practical sessions were taught on the topic of optimization theory and its application to statistics and machine learning problems. The course concentrated on the fundamental theory of optimization with an emphasis on the framework of majorization-minimization algorithms. Applications of focus included regularized smooth and non-smooth regression, estimation ofgeneralized support vector machines, and maximum likelihood estimation of latent variable models such as mixed effects and finite mixture models. Computer classes concentrated on the construction of algorithms using the R programming language. All of the course content can be found at https://github.com/hiendn/CaenOptimization2018.

Capacity: Visiting Teaching Fellow, Lab of Mathematics: Nicolas Oresme

2018 **Models for bioinformatics** (STA5MB, La Trobe University)

A series of two lectures was taught on the topics of k-means clustering, model-based clustering, the expectation maximization algorithn, empirical-Bayesian inference and false discovery rate control, with applications in bioinformatics.

Capacity: Lecturer, Department of Mathematics and Statistics

2016 **Experimental design** (STAT3003, University of Queensland)

A series of four lectures was taught on the topic of sampling theory and finite population statistics.

Capacity: Casual Lecturer, School of Mathematics and Physics

2009–2014 **Tutor** (School of Economics, University of Queensland)

Provided instruction in various mathematical and quantitative courses that were taught by the School of Economics, University of Queensland including undergraduate and postgraduate courses.

Undergraduate: Applied econometrics for macroeconomics and finance (ECON3350; 2014), Mathematical economics (ECON2050; 2012–2014), Tools of economic analysis (ECON1050; 2011, 2014), Introductory econometrics (2300; 2012), Quantitative economics and business analysis B (ECON1320; 2009–2012), Quantitative economics and business analysis A (ECON1310; 2009)

Postgraduate: Mathematical techniques for economics (ECON7150; 2013, 2014), Statistics for business and economics (ECON7300; 2010–2013), Elements of econometrics (ECON7310; 2012)

2007–2014 **Tutor** (School of Mathematics and Physics, University of Queensland)

Provided instruction across the catalog of courses taught by the School of Mathematics and Physics, including various courses in mathematics, probability, and statistics, as well as service-type quantitative courses for students outside of the school.

Mathematics: Multivariate calculus and ODE (MATH1052; 2008, 2012), Calculus and linear algebra II (MATH2000; 2010), Calculus and linear algebra I (MATH1051; 2009), Basic mathematics (MATH1040; 2007)

Statistics: Advanced analysis of scientific data (STAT1301; 2014), Experimental design (STAT3003; 2012, 2013), Analysis of scientific data (STAT1201; 2008–2011), Analysis of engineering and scientific data (STAT2201; 2009), Probability models for engineering and science (STAT2203; 2008)

Service: Biomedical science (BIOM3200; 2012–2014), Research methodology (HRSS7806; 2011–2013), Pharmacy – data analysis and professional practise (PHRM1020; 2008, 2009, 2011), Advanced research processes in health sciences (HRSS7808; 2010)

GRANTS AND RESEARCH FUNDING

2017–2021 **Discovery Project** (242,194 AUD; DP180101192)
Australian Research Council
Coinvestigators: Prof Geoffrey McLachlan (University of Queensland) and Dr Sharon Lee (University of Queensland)
Project: Classification methods for providing personalised and class decisions

2017–2019 **Discovery Early Career Research Award** (360,000 AUD; DE170101134)
Australian Research Council
Project: Feasible algorithms for big inference

2018 **AFRAN Call for Initiatives** (3,000 AUD)
Australian-French Association for Research and Innovation
Project: Research School on Statistics and Data Science

2018 **FASIC RESEARCHERS Program** (2,545 EURO)
Ministry of Europe and Foreign Affairs, and Ministry of Higher Education, Research and Innovation (France)
Coawardee: Dr Florence Forbes
Project: Latent analysis, adversarial networks, and dimensionality reduction

2017–2019 **Start Up Grant** (15,000 AUD)
La Trobe University

SCHOLARSHIPS AND PRIZES

2015 **AK Head Travelling Scholarship** (13,000 AUD)
Australian Academy of Science

2011–2014 **ASPREE-ENVISION Scholarship** (21,000 AUD)
Australian National University

2011–2014 **Advantage RHD Scholarship** (17,500 AUD)
University of Queensland

2011–2014 **Australian Postgraduate Award** (87,000 AUD)
University of Queensland

2010 **Honours Research Scholarship** (5,000 AUD)
Commonwealth Scientific and Industrial Research Organization

2010 **Summer Research Scholarship** (3,000 AUD)
University of Queensland

2009 **Economics Jubilee Scholarship** (8,000 AUD)
University of Queensland

2009 **National Priority Scholarship** (2,000 AUD)
University of Queensland

2008 **Vacation Research Scholarship** (8,500 AUD)
Commonwealth Scientific and Industrial Research Organization

2008 **Elizabeth Norsworthy Power Industry Bursary** (7,500 AUD)
Stanwell Corporation Limited

2008 **Prize for Third Year Statistics** (500 AUD)
Department of Education, Employment and Workplace Relations

2007, 2008 **Undergraduate Scholarship** (8,000 AUD)
Australian Bureau of Statistics

2006, 2007 **Commonwealth Educational Cost Scholarship** (4,000 AUD)
University of Queensland

2006 **Kenneth Swanwick Memorial Prize** (100 AUD)
University of Queensland

2006 **John Black Prize** (100 AUD)
University of Queensland

TEACHING AWARDS

2013, 2014 **Distinguished Teaching Award**
School of Economics, University of Queensland

2012 **Excellence in Tutoring Award**
School of Mathematics and Physics, University of Queensland

CONFERENCE PRESENTATIONS

Poster Presentations

2014 **Asymptotic inference for hidden process regresion models**

Conference: IEEE Statistical Signal Processing Workshop
Location: Gold Coast, Australia

Oral Presentations

2018 **Fast Gaussian mixture model estimation using online EM algorithms**

https://www.dropbox.com/s/p4ilsozbb3zkec4/Slides.pdf?dl=0

Conference: 11th International Conference of the ERCIM WG on Computational and Methodological Statistics (CM-Statistics)

Location: Pisa, Italy

2018 **On approximations via convolution-defined mixture models**
https://www.dropbox.com/s/8n2dgej19rdaex9/Slides.pdf?dl=0

Conference: 2nd Italian-French Statistical Seminar
Location: Grenoble, France

2017 **Stream-suitable optimization algorithms for some soft-margin support vector machines**
https://www.dropbox.com/s/oxctz6iza40c2de/Slides.pdf?dl=0

Conference: 10th International Conference of the ERCIM WG on Computational and Methodological Statistics (CM-Statistics)
Location: London, UK
